

INTRODUCING: Steven Victor MD

One of our staffers used the stuff for a mere week and had hair that fills in and grows fast. So don't let a 10.00 over-shampoo stop you. Each bottle boasts amazing clinical results, the wisdom of one of the pioneers of cosmetic dermatology, and is formulated with exotic botanicals and backed by the very best technology. Instead of AHA, retinoids and harsh chemicals, pure as a spring—don't you think it's worth it, who is?

• Dr. Steven Victor's proprietary form factor technology gives each product a unique, triple ingredient synergism, and therefore multiple benefits.
